Scatter Joy Acres

1 Week Day Camp

Our elementary summer program (6–12 year-olds) gives children opportunities to explore areas of interest in more depth and also provides full-day recreation programs for students. Day Camp experiences let children experience the beauty of the outdoors, and all that the Scatter Joy Acres Ranch has to offer through its Hiking, Crafts, Early STEM Learning, Animal Studies, and an introduction to Cowboy Ethics. Children 6 to 12 years old can attend for as little as a few hours each day to full days (8:30 am–3:30 pm).

INSPIRING YOUTH TO *BE SOMEBODY OF CHARACTER!*

In these challenging times, it takes something special to succeed in a career, and in life. Young people need a strong sense of who they are...what they want to stand for...and what kind of

life they want to have. The trouble is, this kind of reflection generally falls between the cracks in standard school curricula and traditional character education.

We are helping to fill this gap and provide quality care this summer with a one week summer day camp program we call *BE SOMEBODY!* Rather than lecturing kids or telling them what to believe, it takes them on a journey of self-discovery and goal-

setting — one that inspires them to reach for the best in themselves while learning about their environment, kindness, animals, teamwork and more. Drawing on all three of Jim Owen's books, *THE TRY*, *COWBOY ETHICS*, and *COWBOY VALUES*, it's designed to reach students at an age when new inspirations can elevate their sights and alter their life trajectory.

As an added service, More Than Just A Village Academy has partnered with Kaplan College of Nursing to provide **FREE** basic back-to-school physicals with your enrollment each Friday of camp (**\$15 for non-enrolled youth each Friday in July from 3pm-5pm**).
